Happy New Year!

Welcome back to school for the year 2021. While many are happy to see 2020 behind us, the world sure learned a lot during that year. What new things has your family adopted that you would like to keep doing regardless of the coronavirus? Many of us have enjoyed quieter times spent with our family (and at one time those outside our household!) and I hope that is one of the new routines I carry with me. Slow down, observe, reflect and live in the moment.

Parking lot/Drop-off and pick-up

Thank you to all of our families for keeping our parking lot safe. People are parking their cars in the stalls provided and not taking up parking spots or blocking others who are doing the drive around. When we all look out for others and how our choices may impact those around us—it helps to keep us all safe. So, Thank you very much for being kind and ensuring the safety of our Blundell community!

Keeping our community clean

Thank you to Division 9 who was on clean up duty this week. The weather cooperated and we had some awesome helpers!
