

# LEARNING LIBRARY COMMONS

## Butterflies

A collaborative study with Division 8 learning about the life cycle of the caterpillar to the butterfly.

## 3-D printer

An extra curricular club where students learned about design and then shared their skills with the school community. Generated curiosity and creativity.

## Landforms

A collaborative project with Division 10 learning about landforms and geography in our own backyard. They proceeded to build the lower mainland.

## Magic

A collaborative project with Division 3 designing and making their own magical wands.
